[GitHub](#) | [LinkedIn](#)

OBJECTIVE

Motivated student with a strong foundation in HTML, CSS, JavaScript, and React, seeking an entry-level Frontend Developer opportunity or internship. Built a complete, deployed portfolio project from scratch and eager to keep growing by contributing to real-world products.

SKILLS

Languages & Core: HTML, CSS, JavaScript

Frameworks & Libraries: React, React Router, Tailwind CSS

Tools: Git, GitHub, VS Code, Vite, REST APIs

PROJECTS

Movie & TV Explorer — *React, Tailwind CSS, TMDB API, React Router*

github.com/mohamedabdellahalsayed-source/movie-explorer

- Built a full movie and TV discovery web app from scratch using React and the TMDB API.
- Implemented live search with debouncing, a trending movies homepage, and dynamic movie detail pages using React Router.
- Added a Favorites feature with heart-toggle UI and localStorage persistence across sessions.
- Styled the entire app with Tailwind CSS, including a cinematic backdrop layout on the details page.
- Managed the project with Git and GitHub, committing progress incrementally from setup to deployment.

EDUCATION

Faculty of Science, Al-Azhar University (in progress)

LANGUAGES

Arabic: Native

English: Basic
